

Spring 2023 CBE Seminar Series

Prof. Blanca Lapizco-Encinas

Rochester Institute of Technology
April 7

Electrokinetics

Prof. Jasna Jankovic

University of Connecticut
May 12

Materials for clean energy

Prof. Michelle Calabrese

University of Minnesota
April 14

Rheology and soft matter

Prof. Lakis Mountziaris

University of Houston
May 19

*Reaction engineering/ photonic
materials/biosensors*

Prof. Paulette Clancy

Johns Hopkins University
April 21

Computational materials processing

Prof. Andrew Spakowitz

Stanford University
May 26

*Theory and computation of biological
processes and complex materials*

Prof. Jingguang Chen

Columbia University
April 28

Catalytic materials

Prof. Jinhye Bae

UCSD
June 2

Soft active materials

Prof. Sang Woo Seo

Seoul National University
May 5

Synthetic biology and systems biology
