

STUDENT INFORMATION		The normal time-to-degree for the BME Master's degree is one to two (1-2) years, with the maximum allowable time of three (3) years. <i>Students must advance their MS degree one quarter prior to filing the thesis.</i>		
Name:		Student ID Number:		
Advisor:		Email Address:		
Term Expected to Advance to Candidacy: ____ Fall ____ Winter ____ Spring Year _____				
Term Expected to Graduate: ____ Fall ____ Winter ____ Spring Year _____				
DEGREE REQUIREMENTS		Students must successfully complete designated course work and conduct a focused research project. <i>Students are encouraged to stay in one lab to focus on research and are not required to rotate.</i>		
Year 1	Complete core and elective courses; match with a faculty research advisor			
Quarter	Course #	Course Title	Units	Grade
Fall	BME 210	Molecular and Cell Engineering	4	
	BME 220	Sensory Motor Systems	4	
	BME 230A	Applied Engineering Math I	4	
	BME 298	Seminars in BME	2	
	BME 299	Individual Research (Lab Rotation)	2	
Winter	BME 221	Organ Transplant Systems	4	
	BME 230B	Applied Engineering Math II	4	
	BME 298	Seminars in BME	2	
	BME 299	Individual Research (Lab Rotation)	2	
		(Elective Course)	4	
Spring	BME 240	Introduction to Clinical Medicine for BME	4	
	BME 298	Seminars in BME	2	
	BME 299	Individual Research (Lab Rotation)	2	
		(Elective Course)	4	
Year 2	Complete focused research project; submit written thesis			
Quarter	Course #	Course Title	Units	Grade
F/W/S	BME 295	Research Method Discussion	2	
	BME 296	Master of Science Thesis Research	1-16
