DEGREE REQUIREMENTS

Year 1	Complete core and two elective courses; complete at least two lab rotation; pass preliminary exam; match with a faculty research advisor			
Quarter	Course #	Course Title	Units	Grade
Fall	BME 210	Cell & Tissue Engineering	4	
	BME 220	Sensory Motor Systems	4	
	BME 230A	Applied Engineering Math I	4	
	BME 298	Seminars in BME	2	
	BME 299	Individual Research (Lab Rotation)	2	
Winter	BME 221	Organ Transplant Systems	4	
	BME 230B	Applied Engineering Math II	4	
	BME 298	Seminars in BME	2	
	BME 299	Individual Research (Lab Rotation)	2	
			(Elective Course)	4
Spring	BME 240	Introduction to Clinical Medicine for BME	4	
	BME 298	Seminars in BME	2	
	BME 297	PhD Dissertation Research	2	
			(Elective Course)	4
Year 2	Complete two graduate level elective courses with approval of advisors; research; form graduate advisory committee; pass qualifying exam			
Quarter	Course #	Course Title	Units	Grade
Fall	BME 298	Seminars in BME	2	
	BME 297	PhD Dissertation Research	1-10	
Winter	BME 298	Seminars in BME	2	
	BME 297	PhD Dissertation Research	1-10	
Spring	BME 298	Seminars in BME	2	
	BME 297	PhD Dissertation Research	1-10	
		(Graduate Level Elective Course)	2 or 4	
		(Graduate Level Elective Course)	2 or 4	
Year 3 & 4	Research; present preliminary results in BME seminar series			
Year 5	Research; complete dissertation; pass final examination
