

Fall 2020 Virtual Seminar Series

11 am -12 pm (PT)

Department of
Chemical and
Biomolecular Engineering

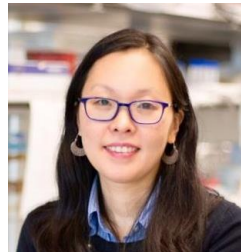

Prof. Yushan Yan

University of Delaware

October 9

Research area:
Electrochemical energy engineering

Prof. Jin Kim Montclare

New York University

November 20

Research area:
Protein biomaterials

Dr. Jeffrey Ting

3M

October 16

Research area:
Polymer science & engineering

Prof. Daniel Zuckerman

Oregon Health & Sciences
University

December 4

Research area:
Multi-scale biological simulations

Prof. Panagiotis Christofides

UCLA

October 23

Research area:
Process systems engineering

Prof. Zhibin Guan

UC Irvine

December 11

Research area:
Bioinspired soft materials

Prof. Rajamani Gounder

Purdue University

October 30

Research area:
Heterogenous catalysis

Prof. Irene Chen

UCLA

November 13

Research area:
Biomolecular design and evolution
