

Structural Engineers (South Pasadena)

Compensation: Commensurate with experience

Employment type: full-time

Hohbach - Lewin is a consulting structural engineering firm in South Pasadena. We are seeking experienced engineers (1-2 yrs.) with demonstrated proficiency in the analysis and design of concrete, masonry, steel, and timber structures. We are a growing, fast-paced, energetic, friendly company that encourages professional development and promotes a positive and educational atmosphere.

Prospective candidates should have at least a Bachelor of Science degree in Civil Engineering from an accredited university and experience in structural design and detailing for building systems and components. We offer an opportunity to work on a variety of project types with experienced licensed structural and professional engineers and CAD technicians. Project sectors include: educational and healthcare facilities, public works projects, retail facilities, parking garages, custom and multi-unit residential, and car dealerships.

Job duties include but are not limited to:

- Assisting in the design of structural systems for buildings and components
- Preparing calculations and structural designs alongside senior and project engineers
- Preparing construction sketches and documents, including: plans, sections, elevations, and details for CAD work and Revit
- Assisting other engineers during Construction Phase with review of submittals, inquiries and job-site visits
- Revit Structure experience is a plus

Engineering applicants are asked to send a cover letter and resume showing demonstrated work experience or coursework highlighting the above noted areas of expertise.

Compensation:

We offer a competitive hourly wage commensurate with experience.

Company Benefits include: Paid Time Off, Health, Dental, Vision, Profit-Sharing Pension Plan.
