Working Title: Departmental Purchase and Finance Analyst
Department: Engr Adv Power & Energy Pgrm
Bargaining Unit: 99
FLSA: Non-Exempt
Payroll Job Code: 007740
Job Location: UCI Campus- Irvine
Percent of Time: 100%
Work Schedule: 8-5
Employee Class: Career

Position Summary:

The Advanced Power and Energy Program (APEP) at the University of California, Irvine addresses the development and deployment of efficient, environmentally sensitive, sustainable energy conversion and power generation worldwide. At the heart of this endeavor is the creation of new knowledge brought about through fundamental and applied research, and the sharing of this knowledge through education, outreach, demonstration, and deployment. Industry is actively engaged and vital to this effort. The administrative team supports APEP’s research, educational and outreach activities. This position is responsible for the purchasing and reimbursement functions of the program and provides support to the other team members and periodically to APEP’s outreach efforts. There is a strong emphasis on accurate, efficient work flow that complies with responsible stewardship and compliance with policies and procedures established by the UC system, UCI, Federal, State, and (where applicable) agencies. Embody the UCI values of respect, intellectual curiosity, integrity, commitment, empathy, appreciation, and fun while working cooperatively with all members of our community.

Uses professional purchasing skills and concepts to complete purchasing assignments of moderate complexity requiring the analysis and review of multiple procurement options. Has authority to make purchases within a moderate and pre-approved dollar limit. Exercises judgment within defined limits and practices to determine most effective methodology to acquire common goods and services.
Works on problems of moderate scope where analysis of situations or data requires a review of a variety of factors. Provides support to other activities such as timesheet management, payroll entries and periodic outreach activities. Under the general supervision of the Purchasing/Reimbursement Manager, the Purchasing/Reimbursement Coordinator independently evaluates and processes requisitions and reimbursements for the Advanced Power & Energy Program (APEP). Purchase transactions range across a wide variety of research and office materials, laboratory supplies, services, and equipment that is often of a technical and specialized nature. Reimbursements and disbursements are similarly varied and frequently complex, including international travel, events involving service or performance contracts, business meetings, incentive payments, honoraria, awards, gifts, and other miscellaneous forms of payments. Procurement responsibilities include but are not limited to identifying potential vendors, obtaining quotations, evaluating proposals, negotiating terms for orders under $5000, coordination with Purchasing and Risk Services for orders in excess of $5000, and problem resolution related to order, delivery, returned goods, and/or billing. Purchasing responsibilities also include maintaining accurate and complete supporting documentation per campus guidelines. Responsibilities include extensive knowledge of University policies and procedures as they pertain to procurement, accounting, basic contract and grant regulations, and business rules.

**Key Responsibilities**

List key functions and the estimated percentage of time spent performing each of the responsibilities. Indicate which responsibilities are considered "Essential" to the successful performance of the job as defined by the EEOC: "Essential functions are the basic job duties that an employee must be able to perform. You should carefully examine each job to determine which functions or tasks are essential to performance."

*Example:*

25% Essential Performs basic design, development, modification and debugging of software. Evaluates basic software for functional areas. Analyzes existing software or works to formulate logic for basic systems, prepares basic specifications and performs coding.
