

Spring 2021 Virtual Seminar Series

11 am -12 pm (Pacific)

Department of
Chemical and
Biomolecular Engineering

Prof. Andrew Herring

Colorado School of Mines

April 2

*Research area:
Renewable energy*

Prof. Seunghyun Sim

UCI

May 14

*Research area:
Living composite materials*

Prof. Matthew Cooper

North Carolina State University

April 9

*Research area:
Engineering education*

Prof. LaShanda Korley

University of Delaware

May 21

*Research area:
Bioinspired polymers*

Prof. Yi Tang

UCLA

April 16

*Research area: Natural product
biosynthesis and biocatalysis*

Prof. Jim Pfaendtner

University of Washington

May 28

*Research area:
Computational molecular science*

Prof. Gregg Duncan

UMD College Park

April 23

*Research area:
Complex biological fluids & interfaces*

Prof. Felix Buchi

Paul Scherrer Institute

June 4

*Research area:
Fuel cell systems*

Prof. Shaochen Chen

UCSD

April 30

*Research area:
Biomaterials and tissue engineering*
